

Because of wanting to do what is best for the environment have you now acquired quite a collection of very nice, recyclable bags that you don't know what to do with?

Well, FPRC would love for you to bring the vinyl or cloth variety to the office so they can be filled with all the supplies we have to give to our clients as they come in.

We prefer to give out the monthly supplies in those bags rather than plastic or paper bags. They are more durable and practical for our moms who travel a distance to get here and...in general...it just plain looks nicer than handing out plastic or paper bags full of our lovely donations.

You can drop off the bags here at the FPRC Office.

Also please feel free to call us, of course, with any questions.....626-358-2122.
