

Foothills Pregnancy Resource Center

A State-Licensed Medical Clinic

Every medical clinic in the state of California is licensed to provide different services. We want YOU to know what FPRC provides, who we are, and ways you can benefit...

Most clients who come to our clinic need pregnancy verification and are seeking a pregnancy test or even an ultrasound to determine how far along they are. Some just need a safe place to examine their options. We do not charge for our services, therefore we do not stand to gain financially by decisions made here.

***FPRC provides:** FREE Pregnancy testing; Limited Obstetric Ultrasounds for those who qualify. What does qualification mean? You must NOT currently have an OB/GYN. You must NOT be experiencing bleeding, pain or cramping. You must NOT have a history of miscarriages. Lastly, you must be less than 12 weeks pregnant. We hope this answers questions you may have. We also offer, as standard protocol at the time of your pregnancy test, a self-swabbing STDs test. This test shows results same-day, at the time of your visit. It is highly recommended that all our clients who test for pregnancy verification also run this simple test

***Even if a woman feels inclined to choose an abortion**, it is recommended that you take advantage of the STDs testing, as you will NOT be offered a test at the time of your abortion. Also, an ultrasound is the medical procedure which allows us to date your gestation. Thereby we can speak to you about the type of abortion you would need to have. No pressure, just the facts about medically what an abortion may entail, depending upon length of gestation. We want to empower you with knowledge.

*As per guidelines set forth by the California Department of Public health, **we are a state-licensed clinic**. The state of California granted us our license. We operate under our physician's professional license.

***We keep all client-patient records PRIVATE.**

*Our ultrasounds are performed by **a licensed RN who's trained in LOUS**. Pregnancy testing and STDs testing are performed by her as well. Our LOUS are read by **our Medical Director, who is a licensed OB/GYN**.

* All visits to our clinic are **FREE and CONFIDENTIAL**.

*FPRC welcomes your questions and comments. **Please do not hesitate at any time to speak with the clinic Executive Director, Lori Berg.**

We're so glad you're here...we truly are **a safe place that recycles hope** into all our clients and friends. We want you to be clearly informed that we do not refer for abortion. Thank you.
